# H.264 1.3-Megapixel PoE Network Camera

FCS-1141

H/W Version: 1

The LevelOne FCS-1141 is a 1.3 Megapixel PoE HD WDR Network CCD Camera, ideal for video surveillance systems where clear images and greater image detail are required. It is the perfect solution for securing areas where high quality identification is needed, such as airports, passport controls and casinos.

The FCS-1141 has a superior, highly sensitive Sony image sensor and has good low-light performance. It features automatic day and night functionality with removable infrared-cut filter for increased light sensitivity. In addition to MPEG-4 and MJPEG real time streaming, the HD WDR IP Camera has a superior H.264 codec to smoothly transfer High Definition surveillance data through Internet without distortion.

The built-in Wide Dynamic Range (WDR) function allows getting crystal clear images even in extreme conditions; this feature enhances the camera's performance in installations including shops, banks, parking lots, factories and building surveillance.

The integrated BNC connector allowing the FCS-1141 to be connected directly to an analog monitor, providing enhanced flexibility and usability and ease of installation. Together with PoE, activity adaptive streaming, and the included 32-CH LevelOne IP CamSecure Lite surveillance management software the FCS-1141 is indisputably the top choice for reliable and high performance surveillance.
