## English

#### **Package Contents**

- FNS-1020 1-Bay Simple Network Storage
- Power Adapter (12VDC, 4A)
- RJ-45 LAN Ethernet Cable
- Desktop Stand and Rubber Feet
- Installation Screws
- CD-ROM with Manual / Configuration Utility
- Quick Installation Guide

If any of the above items are missing, please contact your retailer or distributor.

#### Installation

1. Unfasten the two screws from the rear and remove the back panel.

**2.** Pull out front panel and inner tray.

3. Make sure the jumper on your hard drive is set to Master

\* Consult the instructions on your hard drive as it differs from each manufacturer. **4.** Install your 3.5-inch IDE or SATA hard drive and connect the data and power cables.

Then use the screws provided to fasten the hard drive.

5. Put on the front panel.

The arrow on the casing indicates **bottom front**.

6. Reassemble the back cover and fasten the two screws.

### **Connecting the Cables**

1. Now connect the power adapter and network cable.

2. Connect the FNS-1020 to an Internet ready router.

**3.** Installation is now complete. You can now power on the device and begin to configure the settings.

#### Check Network Settings (Windows XP / Vista)

1. Click Start button and open Control Panel.

Windows XP

Windows Vista

2. Windows XP, click [Network Connection]

#### Windows Vista, click [View Network Status and Tasks] then [Manage Network Connections]

#### Tasks

- View computers and devices
- Connect to a network
- Set up a connection or network
- Manage network connections
- Diagnose and repair

3. Right click on [Local Area Connection] and choose [Properties].

 Check the "Client for Microsoft Networks", "File and Printer Sharing", and "Internet Protocol (TCP/IP) is ticked. If not, please install them.

QoS Packet Scheduler  File and Printer Sharing for Microsoft Networks  I Internet Protocol Version 6 (TCP/IPv6)  Internet Protocol Version 4 (TCP/IPv6)

### Deutsch

#### Packungsinhalt

- FNS-1020 Netzwerkspeicher mit einem Einschub
- Netzadapter 12 V DC, 4 A
- RJ-45-LAN-Ethernet-Kabel
- Tischfuß und Gummifüße
- Montageschrauben
- CD-ROM mit Handbuch / Konfigurationsprogramm
- Kurzinstallationsanleitung

Falls Sie die oben genannten Teile nicht vollständig erhalten haben, wenden Sie sich an Ihren Fachhändler.

#### Installation

 Lösen Sie die beiden Schrauben in der Rückwand und entfernen Sie die Rückwand.

3. Der Jumper am Festplattenlaufwerk muss auf **Master** gesetzt werden.

\* Gebrauchsanweisung für das Festplattenlaufwerk beachten; die Vorgehensweise ist je nach Hersteller unterschiedlich. 2. Ziehen Sie die Frontplatte mitsamt Innenteil heraus.

 Installieren Sie Ihr 3,5-Zoll IDE oder SATA-Festplattenlaufwerk und schließen Sie Daten- und Stromkabel an.

Danach das Festplattenlaufwerk mit den zugehörigen Schrauben befestigen.

Setzen Sie die Frontplatte ein. 5. Der Pfeil auf dem Gehäuse kennzeichnet die Unterseite der Frontplatte.

6. Setzen Sie die Rückwand ein und schrauben Sie sie fest (2 Schrauben).

### Anschluss der Kabel

 Schließen Sie das Kabel zum Netzadapter und das Netzwerkkabel an.

 Schließen Sie das FNS-1020 an einem Internetfähigen Router an.

 Die Installation ist jetzt abgeschlossen, und Sie können das Gerät einschalten und mit der Konfiguration beginnen.

### Netzwerkeinstellungen überprüfen (Windows XP / Vista)

 Klicken Sie auf die Start-Taste und öffnen Sie die Systemsteuerung.

und dann [Manage Network Connections] (Netzwerkverbindungen verwalten)

Network and Internet Connect to the Internet <u>View network status and tasks</u> Set up file sharing

Benutzerhandbuch auf der zugehörigen CD.

### Français

#### Contenu de l'emballage

- Stockage réseau simple 1 baie FNS-1020
- Alimentation (12 VCC, 4 A)
- Câble réseau Ethernet RJ45
- Support de bureau et pied caoutchouté
- Vis d'installation
- CD-Rom avec manuel / utilitaire de configuration
- Guide d'installation rapide

Si l'un des éléments ci-dessus venait à manquer, veuillez contacter votre détaillant ou distributeur.

#### Installation

 Dévissez les deux vis à l'arrière et enlevez le panneau arrière.

 Vérifiez que le cavalier sur votre disque dur est sur la position Maître

\* Consultez les instructions sur votre disque dur car cela diffère selon les fabricants. 2. Retirez le panneau frontal et le plateau intérieur.

 Installez votre disque dur IDE ou SATA 3,5" et connectez les câbles d'alimentation et de données.

Puis utilisez les vis fournies pour fixer le disque dur.

Installez le panneau frontal.
 La flèche sur le boîtier indique le <u>bas de la face avant</u>.

6. Remettez en place le couvercle arrière et serrez les deux vis.

### Connexion des câbles

1. Connectez à présent l'alimentation et le câble réseau.

2. Connectez le FNS-1020 à un routeur avec Internet.

 L'installation est maintenant terminée. Vous pouvez maintenant mettre votre appareil sous tension pour effectuer la configuration.

### Vérifier les réglages réseau (Windows XP / Vista)

Cliquez sur Démarrer et ouvrez le panneau de configuration. 1.

Windows XP

Sous Windows XP. cliquez sur [Network Connection] (Connexions Réseau)

Sous Windows Vista, cliquez sur [View Network Status and Tasks] (Afficher l'état et la gestion du réseau) puis [Manage Network Connections] (Gérer les connexions réseau)

Network and Internet Connect to the Internet View network status and tasks Set up file sharing

#### Tasks

View computers and devices

Connect to a network

Set up a connection or network

Manage network connections

3. Faites un clic droit sur [Local Area Connection] (Connexion réseau local) et choisissez [Properties] (Propriétés).

4. Vérifier que "Client for Microsoft Networks" (Client pour les réseaux Microsoft), "File and Printer Sharing" (Partage de fichiers et d'imprimantes) et "Internet Protocol (TCP/IP)" (Protocole Internet (TCP/IP)) sont cochés. Si ce n'est pas le cas, installez-les.

## Español

#### Contenido del paquete

- Dispositivo de almacenamiento en red sencillo de 1 bahía FNS-1020
- Adaptador de alimentación (12 VDC, 4 A)
- Cable Ethernet LAN RJ-45
- Soporte de sobremesa y patas de caucho
- Tornillos de instalación
- CD-ROM con manual / utilidad de configuración
- Guía de instalación rápida

Póngase en contacto con su distribuidor o proveedor inmediatamente si alguno de los artículos anteriores falta o se encuentra dañado.

#### Instalación

 Desenrosque los dos tornillos de la parte posterior y extraiga el panel trasero.

**2.** Tire del panel delantero y de la bandeja interior.

**3.** Asegúrese de que el puente de su disco duro se encuentra colocado en la posición **Maestro**.

\* Consulte las instrucciones de su disco duro, ya que podrían diferir según el fabricante.

 Instale su disco duro IDE o SATA de 3,5 pulgadas y conecte después los cables de datos y alimentación.

Utilice entonces los tornillos suministrados para fijar el disco duro.

Instale el panel delantero.
 La flecha de la carcasa indica la parte delantera inferior.

6. Vuelva a montar la cubierta trasera y apriete los dos tornillos.

### Conexión de los cables

1. Conecte ahora el adaptador de alimentación y el cable de red.

 Conecte el dispositivo FNS-1020 a un router con conexión a Internet.

**3.** La instalación ha finalizado. Ahora puede encender el dispositivo y comenzar a configurar sus parámetros.

### Comprobar la configuración de la red (Windows XP / Vista)

Haga clic en el botón Start (Inicio) y después en Control Panel 1. (Panel de control).

En Windows XP, haga 2. clic en [Network Connection] (Conexión de red).

Tasks

View computers and devices

Connect to a network

Manage network connections

En Windows Vista, haga clic en [View Network Status and Tasks] (Ver el estado y las tareas de red) y después en [Manage Network Connections] (Administrar conexiones de red).

 Haga clic con el botón secundario en [Local Area Connection] (Conexión de área local) y seleccione [Properties] (Propiedades).

4. Compruebe que las opciones "Client for Microsoft Networks" (Cliente para redes Microsoft), "File and Printer Sharing" (Compartir archivos e impresoras) e "Internet Protocol (TCP/IP)" (Protocolo de Internet (TCP/IP)) se encuentren marcadas. De no ser así, instale los componentes correspondientes.

### Nederlands

#### Inhoud verpakking

- FNS-1020 1-bay eenvoudige netwerkopslag
- Voedingsadapter (12VDC, 4A)
- RJ-45 LAN-ethernetkabel
- Bureauvoet en rubberen voetjes
- Installatieschroeven
- Cd-rom met handleiding / configuratiehulpprogramma
- Snelle installatiegids

Als een van de bovenstaande items ontbreekt, neem dan contact op met uw dealer of distributeur.

#### Installatie

1. Maak de twee schroeven op 2. Trek het voorpaneel en de het achterpaneel los en verwijder het.

3. Controleer of de jumper op uw harde schijf is ingesteld op Master

\* Raadpleeg de instructies van uw harde schijf, omdat dit kan verschillen per fabrikant.

binnenlade uit.

Installeer uw 3,5" IDE of SATA harde schijf en sluit de gegevens- en voedingskabels Gebruik daarna aan. de bijgeleverde schroeven om de harde schijf vast te maken.

4.
Plaats het voorpaneel terug.
 De pijl op de behuizing geeft aan dat de onderkant eerst moet.

6. Plaats het achterpaneel terug en maak de twee schroeven vast.

## De kabels aansluiten

1. Sluit nu de voedingsadapter en netwerkkabel aan.

2. Sluit de FNS-1020 aan op een router met internetverbinding.

**3.** De installatie is nu voltooid. U kunt het apparaat inschakelen en beginnen met het configureren.

# Netwerkinstellingen controleren (Windows XP / Vista)

1. Klik op de knop Start en open het Configuratiescherm.

Windows XP

Windows Vista

2. Klik in Windows XP, op [Network Connection] (Netwerkverbinding)

Klik in Windows Vista op [View Network Status and Tasks] (Netwerkstatus en taken weergeven) en daarna op [Manage Network Connections] (Netwerkverbindingen beheren)

Network and Internet Connect to the Internet <u>View network status and tasks</u> Set up file sharing

#### Tasks

View computers and devices

- Connect to a network
- Set up a connection or network

# Dansk

### Pakkeindhold

- FNS-1020 1-Bås Enkel Netværkslagring
- Strømadapter (12VDC, 4A)
- RJ-45 LAN Ethernet-kabel
- Skrivebordsstander og gummifødder
- Skruer til installation
- CD-ROM med brugervejledning / konfigurationsprogram
- Kvikinstallations-guide

Hvis noget af ovennævnte mangler, bedes du venligst kontakter din forhandler eller distributør.

#### Installation

 Løsn de to skruer på bagsiden og fjern bagpanelet.

**3.** Kontroller, at bøjlen på harddiskdrevet står på **Master** 

\* Se instruktionerne på harddiskdrevet, da det kan afvige producenterne imellem. 2. Træk forpanelet og den indvendige bakke ud.

 Installer 3,5" IDE eller SATA harddiskdrevet og forbind dataog strømkablerne.

Fastgør derefter harddiskdrevet med de medfølgende skruer.

Sæt forpanelet på plads igen.
 Pilen på huset angiver <u>forside nederst</u>.

6. Set bagpanelet på plads igen og stram de to skruer.

# Tilslutning af kabler

1. Tilslut strømadapter og netværkskabel.

2. Forbind FNS-1020 til en internet-forberedt ruter.

**3.** Installationen er nu fuldført. Du kan nu tænde for enheden og begynde at konfigurere indstillingerne.

## Tjek netværksindstillinger (Windows XP / Vista)

1. Klik på startknappen og åbn kontrolpanelet.

Windows XP

 Windows XP, klik på [Network Connection] (Netværksforbindelse)

Windows Vista, klik på [View Network Status and Tasks] (Se netværksstatus og opgaver) og derefter på [Manage Network Connections] (Styr netværksforbindelser)

#### Tasks

View computers and devices

Windows Vista

- Connect to a network
- Set up a connection or network
- Manage network connections
- Diagnose and repair

 Højreklik på [Local Area Connection] (Lokalområdeforbindelse) og vælg [Properties] (Egenskaber).

 Kontroller, at "Client for Microsoft Networks" (Klient til Microsoft netværk), "File and Printer Sharing" (Fil- og printerdeling) og "Internet Protocol (TCP/IP)" (Internet-protokol (TCP/IP)) er afmærket. Hvis ikke, installer det.

#### Contenuti della confezione

- FNS-1020 storage di rete con 1 slot
- Alimentatore (12V CC, 4A)
- Cavo Ethernet RJ-45 LAN
- Base da tavolo e piedini di gomma
- Viti per l'installazione
- CD-ROM con Manuale / Utility di configurazione
- Guida rapida all'installazione

Mettersi in contatto con il rivenditore o distributore se manca uno qualsiasi degli elementi sopra indicati.

#### Installazione

 Allentare le due viti sul retro e rimuovere il pannello posteriore.

3. Assicurarsi che il jumper del disco rigido sia impostato su Master

\* Consultare le istruzioni del disco rigido poiché sono diverse per ciascun produttore. 2. Estrarre il pannello posteriore ed il cassetto interno.

 Installare l'unità disco IDE o SATA 3,5 pollici e collegare il cavo dati e d'alimentazione.

Poi usare le viti in dotazione per fissare il disco rigido.

Rimettere il pannello frontale.
 La freccia sulla copertura indica la parte <u>inferiore frontale</u>.

6. Rimontare la copertura posteriore e stringere le due viti.

# Collegamento dei cavi

1. Collegare l'alimentatore ed il cavo di rete.

2. Collegare FNS-1020 ad un router con collegamento ad Internet.

**3.** L'installazione è completata. Adesso si può accendere l'unità ed iniziare a configurare le impostazioni.

# Controllo delle impostazioni di rete (Windows XP / Vista)

1. Fare clic sul tasto Start ed aprire il Pannello di controllo.

 Fare clic col tasto destro del mouse su [Connessione alla rete locale] e selezionare [Proprietà].

4. Verificare che "Client per reti Microsoft", "Condivisione file e stampanti" e "Protocollo Internet TCP/IP" siano selezionate. In caso contrario, eseguire l'installazione.

### Περιεχόμενα Συσκευασίας

- FNS-1020 1-Bay (Δικτυακό μέσο αποθήκευσης για ένα δίσκο)
- Προσαρμογέας τροφοδοτικού (12VDC, 4A)
- RJ-45 LAN Καλώδιο Ethernet
- Επιτραπέζια βάση
- Βίδες συναρμολόγησης
- CD-ROM με εγχειρίδιο / Βοηθητικό πρόγραμμα ρύθμισης
- Οδηγός Γρήγορης Εγκατάστασης

Εάν κάποιο από τα παραπάνω αντικείμενα λείπει, επικοινωνήστε με τον έμπορο ή τον διανομέα.

#### Εγκατάσταση

 Ξεβιδώστε τις δύο βίδες από το πίσω μέρος και αφαιρέστε το πίσω μέρος.

 Βεβαιωθείτε ότι το Jumper στη μονάδα σκληρού δίσκου έχει οριστεί σαν Master.

\* Συμβουλευτείτε τις οδηγίες για τον σκληρό σας δίσκο καθώς διαφέρει για κάθε κατασκευαστή.  Τραβήξτε το μπροστινό μέρος κρατώντας το μεσαίο σταθερό.

Εγκαταστήστε τον δίσκο IDE 3,5" ή τον SATA και συνδέστε τα καλώδια δεδομένων και τροφοδοσίας.

Κατόπιν χρησιμοποιήστε τις βίδες που περιλαμβάνονται στη συσκευασία για να στερεώσετε τον σκληρό δίσκο.

4.

Τοποθετήστε το μπροστινό μέρος.
 Το βέλος στο περίβλημα υποδεικνύει το μπροστά κάτω.

6. Συναρμολογήστε το πίσω κάλυμμα και συνδέστε τις δύο βίδες.

# Σύνδεση των καλωδίων

1. Συνδέστε το τροφοδοτικό και το καλώδιο δικτύου.

 Συνδέστε το FNS-1020 σε έναν εγκατεστημένο Δρομολογητή (Router) στο δίκτυό σας..

 Η εγκατάσταση έχει πλέον ολοκληρωθεί. Μπορείτε τώρα να ενεργοποιήσετε τη συσκευή και ξεκινήστε να διαμορφώνετε τις ρυθμίσεις.

## Έλεγχος των ρυθμίσεων (Windows XP / Vista)

Πατήστε το πλήκτρο Έναρξης και ανοίξτε τον Πίνακα Ελέγχου. 1.

Windows XP

Connection] (Σύνδεση

**2.** Για Windows XP. πατήστε [Network

**Για** Windows Vista. πατήστε [View Network Status and Tasks] (Προβολή Κατάστασης και Εργασιών δικτύου) κατόπιν [Manage Network Connections] (Διαχείριση συνδέσεων δικτύου)

#### Tasks

View computers and devices

Connect to a network

Set up a connection or network

#### Conteúdo da embalagem

- Armazenagem de rede simples FNS-1020 1-Bay
- Adaptador de alimentação (12VDC, 4A)
- Cabo Ethernet RJ-45 LAN
- Pés de borracha e suporte de área de trabalho
- Parafusos de instalação
- CD-ROM com utilitário de configuração / manual
- Guia de instalação rápida

Se qualquer item acima não for encontrado entre em contato com seu fornecedor ou distribuidor.

#### Installação

 Desaperte os dois parafusos 2. Retire o painel e bandeja da parte de trás e remova o painel de trás.

**3.** Verifique se o jumper no seu disco rígido está configurado para **Master**.

\* Consulte as instruções no seu disco rígido uma vez que difere de cada fabricante.

 Instale seu disco rígido IDE ou SATA de 3,5" e conecte os cabos de alimentação e de dados.

Use depois os parafusos fornecidos para prender o disco rígido.

Coloque o painel frontal.
 A seta na caixa indica <u>frontal inferior</u>.

6. Monte novamente a tampa de trás e aperte os dois parafusos.

## Conexão dos cabos

1. Conecte agora o adaptador de alimentação e o cabo de rede.

2. Conecte o FNS-1020 no roteador pronto de internet.

**3.** A instalação foi concluída agora. Você pode agora ligar o aparelho e começar a fazer as configurações.

# Verficação das configurações de rede (Windows XP / Vista)

1. Clique no botão Start (Iniciar) e abra o painel de controle.

## Förpackningens innehåll

- FNS-1020 1-Bay enkel nätverkslagring
- Strömadapter (12VDC, 4A)
- RJ-45 LAN Ethernetkabel
- Skrivbordsställning och gummifötter
- Installationsskruvar
- CD-skiva med manual / konfigurationsverktyg
- Snabbinstallationsguide

Om någon av ovanstående poster saknas kontakta din återförsäljare eller distributör.

## Installation

 Lossa de två skruvarna på baksidan och ta bort bakpanelen.

 Se till att bygeln på hårddisken är inställd på Master

\* Läs instruktionerna för din hårddisk eftersom de skiljer sig mellan olika tillverkare. 2. Dra ut frontpanelen och inre brickan.

 Installera din 3,5 tum IDE eller SATA hårddisk och anslut data- och strömkablarna.

Använd sedan de medföljande skruvarna för att fästa hårddisken.

Sätt tillbaka frontpanelen.
Pilen på höljet indikerar <u>underkant framsida</u>.

6. Sätt tillbaka bakstycket och fäst de två skruvarna.

## Ansluta kablarna

1. Anslut strömadaptern och nätverkskabeln.

2. Anslut FNS-1020 till en internetredo router.

**3.** Installationen är nu klar. Du kan nu slå på enheten och börja konfigurera inställningarna.

# Kontrollera nätverksinställningarna (Windows XP / Vista)

1. Klicka på Start-knappen för att öppna kontrollpanelen.

Windows XP

Windows Vista

2. Windows XP, klicka på [Network Connection] (Nätverksanslutning)

Windows Vista, klicka på [View Network Status and Tasks] (Visa nätverksstatus och åtgärder) sedan [Manage Network Connections] (Hantera nätverksanslutningar)

### Tasks

View computers and devices

Connect to a network

- Set up a connection or network
- Manage network connections
- Diagnose and repai

3. Högerklicka på [Local Area Connection] (Anslutning till lokalt nätverk) och välj [Properties] (Konfigurera).

 Markera "Client for Microsoft Networks" (Klient för Microsoft nätverk), "File and Printer Sharing" (Fil och skrivardelning) och "Internet Protocol (TCP/IP)" (Internetprotokoll (TCP/IP)) är markerat, om inte installera dem.

## Vsebina paketa

- FNS-1020 mrežna shramba za en disk
- Napajalni adapter (12 V DC, 4 A)
- RJ-45 mrežni kabel
- Namizno stojalo in gumijaste nožice
- Namestitveni vijaki
- CD-ROM medij z navodili / konfiguracijskimi orodji

Hitri namestitveni vodič

Če kateri od zgornjih elementov manjka, se prosimo posvetujte s trgovcem ali distributerjem.

### Namestitev

1. Odvijte dva vijaka na zadnji 2. Izvlecite sprednjo ploščo in strani in odstranite zadnjo ploščo.

notranji pladenj.

3. Prepričajte se, da je jahač na trdem disku nastavljen na Master.

\* Če se trdi disk razlikuje od prikazanega, si pomagajte z navodili za uporabo trdega diska. 4. Namestite 3,5 palčni IDE ali SATA trdi disk in povežite podatkovni ter napajalni kabel. Nato s priloženimi vijaki pritrdite trdi disk.

 Namestite na sprednjo ploščo. Puščica na ohišju prikazuje spodnji del sprednje plošče.

6. Pritrdite zadnji pokrov in privijte vijake.

# Priključevanje kablov

1. Sedaj priključite napajalni adapter in omrežni kabel.

**2.** Priključite FNS-1020 na usmerjevalnik, ki je povezan v svetovni splet.

**3.** Namestitev je tako dokončana. Sedaj lahko vključite napravo in začnete s konfiguracijo nastavitev.

## Preverite omrežne nastavitve (Windows XP / Vista)

1. Kliknite gumb Start in odprite Control Panel (Nadzorno ploščo)

Windows XP

Windows Vista

 Windows XP, kliknite [Network Connection] (Omrežna povezava)

Windows Vista, kliknite [View Network Status and Tasks] (Oglej si stanje omrežja in naloge) nato pa [Manage Network Connections] (Upravljanje omrežnih povezav)

Network and Internet Connect to the Internet <u>View network status and tasks</u> Set up file sharing

#### Tasks

View computers and devices

- Connect to a network
- Set up a connection or network
- Manage network connections
- Diagnose and repair

3. Desno-kliknite [Local Area Connection] (Lokalna internetna povezava) in izberite [Properties] (Lastnosti).

4. Preverite, ali so možnosti "Client for Microsoft Networks" (Odjemalec za Microsoftovo omrežje), "File and Printer Sharing" (Skupna raba datotek in tiskalnikov) ter "Internet Protocol (TCP/IP)" (Internetni protocol (TCP/IP)) odkljukane. Če niso, jih prosimi namestite.

## 包裝內容物

- FNS-1020 1-Bay 簡易網路儲存伺服器
- 電源變壓器 (12VDC, 4A)
- RJ-45 LAN 乙太網路線
- 桌面底座及橡膠腳墊
- 安裝螺絲
- 手冊/設定公用程式光碟
- 快速安裝指南

若缺少上述任一項物品,請與您的零售商或經銷商聯絡。

安裝

- 1. 從背面鬆開兩枚螺絲,然後取 2. 拉出前面板與內部硬碟架。 下背蓋。

3. 確定硬碟上的跳線設為 Master •

\* 若製造商不同,請查閱硬碟隨附的說 明書。

4. 安裝 3.5 吋 IDE 或 SATA 硬 碟, 並連接資料與電源線。 然後請使用隨附的螺絲固定硬 碟。

5. 裝回前面板。 外殼上的箭頭表示<u>下前方向</u>。

6. 重新裝回背蓋,並鎖緊兩枚螺絲。

接線

1. 現在請連接電源變壓器及網路線。

2. 將 FNS-1020 接上可連接網際網路的路由器。

3. 安裝完成。現在即可開啓裝置電源並且進行設定。

Windows XP

檢查網路設定 (Windows XP / Vista)

按一下開始按鈕,然後開啓控制台。

1.

Windows Vista

 若您使用Windows XP,請按 一下 [Network Connection] (網路連線)

若您使用 Windows Vista,請按一下 [View Network Status and Tasks] (檢視網路狀態及工作),然後再按一 下 [Manage Network Connections](管 理網路連線)。

Network and Internet Connect to the Internet <u>View network status and tasks</u> Set up file sharing

### Tasks

View computers and devices Connect to a network Set up a connection or network Manage network connections

#### iagnose and repair

3. 在 [Lo Conne 上按濱	ocal Area ection] ( <b>區域連線</b> ) 上鼠右鍵,然後選擇	Local Area Connection	
ILIOH	ennes] (MA) .		Disable <b>Status</b> Repair
			Bridge Connections
			Create Shortcut Delete Rename
			Properties

 檢查是否已點選 [Client for Microsoft Networks]、[File and Printer Sharing] 及 [Internet Protocol (TCP/IP)] 。若無,請 進行安裝。

San Onoricitor Mile	crosoft Networks

### 패키지 내용물

- FNS-1020 1-베이의 간편한 네트워크 스토리지
- 전원 어댑터(12VDC, 4A)
- RJ-45 LAN 이더넷 케이블
- 데스크톱 스탠드 및 고무 피트
- 설치용 나사
- 사용설명서와 구성 유틸리티가 들어 있는 CD-ROM
- 빠른 설치 설명서

위의 내용물 중 누락된 항목이 있으면, 제품을 구입하신 판매점에 연락하십시오. 설치

1. 후면의 나사 2개를 풀고 2. 전면 패널과 내부 후면 패널을 제거합니다.

트레이를 당겨 꺼냅니다.

3. 하드 드라이브의 점퍼가 **마스터**로 설정되었는지 확인합니다.

\* 하드 드라이브가 제조업체마다 다르기 때문에 하드 드라이브에 대한 설명서를 참조하십시오.

4. 3.5 인치 IDE 또는 SATA 하드 드라이브를 설치하고 데이터 및 전원 케이블을 연결합니다. 그리고 나서 제공된 나사를 사용하여 하드 드라이브를 고정합니다.

전면 패널을 덮습니다. 케이스에 표시된 화살표가 전면 아래쪽을 가리켜야 합니다.

6. 다시 후면 커버를 맞춘 다음 2개의 나사를 조입니다.

#### 케이블 연결하기

1. 전원 어댑터와 네트워크 케이블을 연결합니다.

2. FNS-1020 를 인터넷 사용 가능 라우터에 연결합니다.

 설치가 완료되었습니다. 이제 장치의 전원을 켜고 설정을 구성할 수 있습니다.

### 구성

- 1. 제공된 CD를 넣고 Utility (유틸리티)를 설치합니다.
- 2. 유틸리티를 사용하여 FNS-1020을 찾습니다.
- 3. 암호(admin)를 입력합니다.
- 4. Wizard (마법사)를 클릭하여 네트워크 설정 및 하드 드라이브 구성을 설정합니다.

#### Комплект поставки

- Простое сетевое хранилище FNS-1020 с 1 отсеком
- Блок питания (12 В пост. тока, 4 А)
- Кабель ЛВС Ethernet RJ-45
- Настольная подставка и резиновые ножки
- Установочные винты
- Компакт-диск с руководством пользователя и программой настройки
- Краткое руководство по установке

Если какие либо из указанных предметов отсутствуют,

обратитесь к продавцу прибора или дистрибьютору.

#### Установка

 Отвинтите два винта на задней панели и снимите ее.

3. Перемычку на жестком диске необходимо установить в положение «Master» (Ведущий).

\* См. инструкции производителя по эксплуатации жесткого диска, поскольку они могут различаться.  Извлеките переднюю панель с внутренним кронштейном.

Установите 3,5-дюймовый жесткий диск с интерфейсом IDE или SATA и подключите кабели данных и питания.

Затем закрепите жесткий диск при помощи прилагающихся винтов.

5. Установите переднюю панель. Стрелка на корпусе указывает <u>переднюю часть нижней</u> <u>стороны</u>.

6. Установите заднюю крышку и затяните два винта.

# Подключение кабелей

1. Подключите блок питания и сетевой кабель.

 Подключите FNS-1020 к маршрутизатору, подключенному к Интернету.

**3.** Процедура установки завершена. Теперь можно включить устройство и перейти к настройке параметров.

## Проверьте настройки сети (Windows XP / Vista)

1. Нажмите кнопку «Пуск» и откройте Панель управления.

Windows XP

Windows Vista

2. B OC Windows XP нажмите [Network Connection] (Сетевые подключения)

> В ОС Windows Vista нажмите [View Network Status and Tasks] (Просмотр состояния сети и задачи),

> затем нажмите [Manage Network Connections] (Управление сетевыми подключениями)

Network and Internet Connect to the Internet <u>View network status and tasks</u> Set up file sharing

#### Tasks

View computers and devices

Connect to a network

Set up a connection or network

Manage network connec

Diagnose and repair

3. Щелкните правой кнопкой мыши значок [Local Area Connection] (Подключение по локальной сети) и выберите [Properties] (Свойства).

4. Убедитесь, что установлены флажки «Client for Microsoft Networks» (Клиент для сетей Microsoft), «File and Printer Sharing» (Служба доступа к файлам и принтерам сетей Microsoft), и «Internet Protocol (TCP/IP)» (Протокол Интернета (TCP/IP)). В противном случае установите их.
